

About Dr. Russell

Dr. Norrine Russell began Russell Coaching, a coaching service for middle school through high school students, in 2009 in Tampa, Florida. Now a premier practice, Russell Coaching supports students across the US and Canada. Dr. Russell's passion for providing support to frustrated students and weary parents is fueled by her own experience of raising two complex children (her children's diagnoses include autism, mood disorders, ADHD, giftedness, and learning differences). Dr. Russell knows firsthand the exhaustion parents face as they day in and day out seek solutions for their out-of-the-box children. The entire team at Russell Coaching is committed to supporting the psychological well-being, education, and family life of their clients.
